

The fontawesome-free package

Up-to-date Lua \LaTeX support for Font Awesome

Marc Penninga*

Version 1.2.0 (2024-12-17); includes version 6.7.2 of Font Awesome

Contents

1 Introduction	1
2 Installation	1
3 Usage	2
4 Copyright	2
5 License	2
Appendix A List of icons	3
Appendix B List of brands	15

1 Introduction

There are several packages on CTAN that provide access to the free *Font Awesome* icons, but these have become outdated and are missing many icons from newer versions of Font Awesome. The fontawesome-free package attempts to deal with the update problem by building the \LaTeX support dynamically from data in the fonts themselves; updating the package is then as simple as replacing the font files with newer ones. The drawback of this approach is that the package only works with Lua \LaTeX .

2 Installation

This package is not (yet?) available from CTAN, so it must be installed manually; this is done by copying the contents of the `texmf/` directory to either your `$TEXMFLOCAL` or your `$TEXMFHOME` tree. Installing it in `$TEXMFLOCAL` will make the package available to all users on the system, but may require administrator rights; installing it in `$TEXMFHOME` makes it available just for you. The exact values of `$TEXMFLOCAL` and `$TEXMFHOME` depend on your TeX installation; see your installation's documentation for more information.

*URL:  github.com/drs-p/fontawesome-free

If you are using TeX Live, you can find the value of these variables by running

```
kpsewhich -expand-var '$TEXMFLOCAL'
```

and similarly for `$TEXMFHOME`.

3 Usage

The fontawesome-free package contains all icons from the free subset of the Font Awesome fonts.

`\fa` The package provides one command, `\fa`, with a single mandatory argument: the *<name>* of the icon. Some icons have light or “open” variants, like  versus . Those variants are accessed by adding `-o` to the icon name: `\fa{file-pdf-o}` versus `\fa{file-pdf}`. A full list of icons and their names is included in the appendices.

`\fa*` By default, the Font Awesome icons have varying widths. The `\fa` command has a starred variant `\fa*` that produces fixed-width icons, by centering them in a 1.25em wide box.

4 Copyright

The Font Awesome fonts are Copyright 2024 Fonticons, Inc. (<https://fontawesome.com>) with Reserved Font Name: “Font Awesome”. All other files are Copyright 2024 Marc Penninga.

5 License

The Font Awesome Free fonts are released under the SIL Open Font License, version 1.1. The rest of this package is released under the LaTeX Project Public License, version 1.3c.

All brand icons are trademarks of their respective owners. The use of these trademarks does not indicate endorsement of the trademark holder by Font Awesome or the author, nor vice versa. **Please do not use brand logos for any purpose except to represent the company, product, or service to which they refer.**
